About Me

I am a fresh graduate with a Bachelor's degree in Informatics Engineering from Institut Teknologi Nasional Malang, with a GPA of 3.42/4.00. During my studies, I developed skills in information technology, particularly web development and databases, using HTML, CSS, JavaScript, PHP, Laravel, and MySQL. I am also proficient in Microsoft Word and Microsoft Excel to support administrative tasks and data processing.
In addition to academic activities, I have experience as a Database Laboratory Assistant, which helped me develop technical, communication, teamwork, and responsibility skills. I am eager to learn new things, adaptable to professional environments, and open to opportunities to further develop my skills and contribute professionally.

Education Level

Institut Teknologi Nasional – Malang, Indonesia 2022-2026
Bachelor's Degree in Informatics Engineering.

Work Experiences

- **Internship**

Personnel and Human Resources Development Agency - Batu City 2025
(Developed the Batu City BKPSDM Official Travel Order (SPPD) System)

Organizational Experience

Database Laboratory Assistant 2022-2025

- Assisted students during database laboratory sessions.
